

PRODUCT DESCRIPTION

- Continuous-duty lint capture 24/7
- Prevents build-up of flammable dust in duct systems
- Primary filter efficiency of 99.95% @ .5 micron
- Engineered filter cleaning system
- Duct remains clean, saving time and money on duct cleaning services
- Individual or modular construction available
- Industrial filtration design is proven for land and marine operations.
- Digital timer operation permits flexible programmable filter cleaning cycle
- Custom fit for any size space
- Tool-less service doors allow for easy removal of accumulated lint
- Minimizes potential for duct fires and property damage
- Access door interlocks
- Hi-Temperature Monitoring & Alert to Bridge
- Fire Suppression System Integration
- Insulated for Crew Safety

FEATURES

Our advanced proprietary design allows us the ability to manufacture a model to fit your application. Existing laundries can be retrofitted to replace inefficient and outdated cyclonic and screen type lint capture systems.

Our dependable lint capture systems combine ample storage and capture of 99.95% @ .5 micron of lint discharged from laundry drying operations.

Our system's design assures trouble-free operation with fine lint & dust. Low head loss design promotes faster drying times for production-oriented environments.

Our LRS system's installation on marine vessels has improved dryer efficiencies and increased safety.

This system meets all the demands for crew and passenger.
