

High Efficiency Scrubber

Designed for light and medium duty Commercial Kitchen Ventilation (CKV) operations, the CKV Dry scrubber removes grease droplets, carbon particulate and odors.

Applications

Commercial Kitchen Ventilation
Food Manufacturing
Rendering

Standard Features:

- Suitable for light and medium duty commercial cooking
- High effluent removal efficiency with very low energy consumption
- Heavy-duty all welded construction
- Hands free operation offers automatic fan speed adjustment
- Compact design means a small footprint for over ceiling installations
- Removable service panels with hand knobs for quick and easy access
- Intermediate and larger units designed to fit your available space
- Vertical or horizontal configuration
- Interfaces easily with fire alarm and other CKV control schemes
- Unit comes fully assembled, requiring minimal installation and setup
- Automated controls permit continuous, high-efficiency operation
- Ease of maintenance – serviceable by unskilled labor

CKV Model	CFM
2448	3500
2472	5250
4848	7000

Options:

- Hi efficiency particle filtration - 95% DOP/HEPA
- Roof mount, suspended mount, vertical mounting
- Hi efficiency particle filtration - 95% DOP/HEPA
- Odor control
- Variable air volume controls
